0580_w24_ms_11_Q10

Q	Answer	M	Partial Marks	Guidance
10(a)	34	**1**		Ignore further terms
10(b)	23 nfww	**2**	**M1** for 3[…] – 1 = 68 oe or better	e.g. $\frac{68+1}{3}$, 3[…] = 68 + 1, allow any variable in place of[…] or 3×23 – 1 = 68 may be as a trial with others **M1** is **not lost** if method continues or is abandoned Wrong working seen already: 68 / 3 = 22.6 then 23
