0580_w24_ms_11_Q11

Q	Answer	M	Partial Marks	Guidance
11	632 or 631.9 to 632.0…	**3**	**B2** for 63.2 or 63.19 to 63.20…. as diameter or **M1** for $\frac{198.55}{\pi}$ or $\frac{1985.5}{\pi}$ If zero scored, then **B1** for a correct conversion from cm to mm	**B2** for correct values of diameter using 3.142 or π-button only without further method other than conversion to mm. **M1** is for a **full method** for diameter (could be via radius) using 3.14 gives 63.23…, **M1** scored using 22/7 gives 63.17 to 63.18, **M1** scored See AG **NB**: However, **M0** for these: 1:Using wrong formula e.g. 2π*d* and *d* = 31.6 2: Incorrect answer of **623.7** which comes from 198.55π *their* value ×10 evaluated or 1985.5[mm]
