0580_w24_ms_11_Q21

Q	Answer	M	Partial Marks	Guidance
21(a)	$7(4x - 5)$ final answer	**1**		Condone omission of final bracket $7(2^2x - 5)$ scores 0
21(b)	$4T + 4p$ or $4(T + p)$ final answer	**2**	**M1** for $T + p = \frac{r}{4}$ or $4T = r - 4p$	Condone omission of final bracket Allow t or P but **not** other letters for **2** or **M1** Correct first step - if 2 steps are done at once, it must be clear. Condone e.g. $\frac{4T + 4p}{1}$
